

Berlin, 5th of May 2025

Dear Giacomo,

I want to send you a personal thank you for the dedication and commitment you have shown in your work for the FSFE and particularly the 'Educating Younger Generations about Free Software in Italy (EYG-FS IT)' Campaign. I am so pleased to hear about the impact that you are making by spreading awareness of digital freedom using the Ada & Zangemann book.

Thanks to your continued work, the Free Software message has reached over 500 children in your area – and counting! Not only through readings of the book, but also your initiatives of robotics workshops, drawings and creating cartoons.

Your enthusiasm has really stood out and is truly an inspiration for myself and the whole team at FSFE.

As a token of our appreciation we would like to offer you a gift of 15 books, to use in your next readings and workshops. We would also love to feature you on the FSFE website to share with our audience the work you have accomplished, and what drives your commitment to raise awareness of the importance of free software.

In future, we are more than happy to provide more resources for your continued work for the FSFE. Please let us know if you need more books, or other materials for the workshops that you are running.

With heartfelt thanks,

Matthias

*e un caro saluto anche da Marta :)*

*grazie di cuore Giacomo!*

*a presto per un gelato insieme!*
